EXPERIENCE

The Kroger Co. – Cincinnati, Ohio

June 2026 - Present

Technology Sourcing Category Management Analyst

- Supported technology sourcing and category management across enterprise hardware, software, and IT services spend, analyzing supplier and spend data in Coupa to inform procurement strategy
- Built spend analyses and supplier scorecards, drawing on ServiceNow asset and vendor records, that supported contract negotiations, vendor evaluations, and cost-savings initiatives
- Partnered with IT and business stakeholders to align sourcing decisions with technical requirements and total cost of ownership

Miami Hurricanes Baseball – Coral Gables, FL

September 2025 - May 2026

Data Analytics Student Manager Intern

- Provided analytics support to the coaching staff of a program that reached the 2026 NCAA Tournament (Gainesville Regional), translating data insights into actionable player-development strategies
- Designed and built an AI-powered analytics dashboard that automated pitch classification and performance-metric reporting from TrackMan and Kinatrax data
- Ranked 535 D1 hitters on a composite discipline-and-power model across ~52K strikeout pitches, surfacing pitch-type whiff patterns (breaking balls highest whiff rate, four-seam the top putaway pitch) for the coaching staff

Woolworths Group – Sydney, Australia

June 2023 - August 2023

Supply Chain Project Intern

- Analyzed truckload and arrival-time data in Excel and Qlik to support decision-making during negotiations with freight forwarders
- Observed 5+ freight-forwarder negotiation meetings, building exposure to international logistics and supplier negotiation
- Developed and presented slide-deck packets for senior leadership, showcasing company demographics and global shipping sources to support strategic planning

PROJECTS

City National Bank of Florida – Miami, FL

January 2026 - April 2026

IT Asset Management Dashboard | Student Intern

- Contributed to a cross-functional KPI audit across ~4,200 IT hardware assets in ServiceNow, modeling lifecycle and end-of-life data to predict at-risk units and surface legacy dependencies within internal systems
- Supported development of a unified performance framework to standardize risk metrics and align reporting with strategic technology priorities
- Built executive-ready Power BI dashboards across 4 interactive report pages and 19 custom DAX measures, translating system risk indicators into clear, actionable insights for leadership, delivered in pure DAX/CSS to meet a no-JavaScript security constraint

Tractor Beverage Capstone – Morgantown, WV

January 2025 - April 2025

Safety Stock Optimization | Project Team Leader

- Led a team of 7 to design a customized, SKU-level safety-stock strategy across a 27-SKU portfolio, using ABC analysis to prioritize the high-value products driving the majority of revenue
- Built multi-tier safety-stock models in Excel, pairing service-level (NORM.S.INV) formulas with bootstrap/Monte Carlo resampling for non-normal lead-time demand, and documented a process map for the client team to reuse
- Set SKU-level service-level targets of 85-95%; back-testing indicated the model would have prevented ~80% of prior stockouts on key items while improving return on inventory investment 20%+
