EDUCATION

University of Miami Business School Coral Gables, FL — May 2026
Master of Science in Business Analytics
- **GPA: 3.9 / 4.0** | Honors: Award of Academic Merit, MHBS Scholarship

West Virginia University Morgantown, WV — May 2025
B.S. in Business Administration - Major: Supply Chain Management, Minor: Finance
- Honors: President's List (Spring 2023); Dean's List (Fall 2023, Spring 2024, Spring 2025)

EXPERIENCE

The Kroger Co. Cincinnati, OH — Jun 2026 - Present
Sourcing Category Management Analyst | Technology
- Leading a **competitive RFP across 8 vendors** for contract-management software targeted to **reduce contract cycle time by 50%**; built a weighted scorecard combining **1,757 scores from 8 evaluators** across 5 business groups to narrow the field to 3 finalists.
- Built a **3-year TCO model** comparing **~$3M** finalist bids and **$300K-$1.7M** implementation quotes, split into OpEx and CapEx.
- Analyzed a **$264K/year** software renewal moving to usage-based pricing and recommended holding spend flat, avoiding a **$174K add-on (66% increase)** and $110K of capacity that usage data didn't support.
- Compared 4 years of pricing and contract terms on a SaaS renewal, flagging a **23% core fee increase**, no price-increase cap, and missing payment terms to strengthen the negotiation position.
- Supported validation of a telecom expense audit spanning **~29,000 invoice lines** that surfaced **$555K-$614K in potential monthly savings**, informing evaluation across Technology, Finance, and Sourcing.
- Built a **Power BI** dashboard with **30+ DAX measures** screening **~500 vendors** for API gateway and developer-tool usage, targeting **150+ vendors** and stakeholders to cut costs from unused or least-used API keys.
- Taking ownership of a second **multimillion-dollar RFP** for store-flow analytics and camera solutions, turning IT and business requirements into supplier evaluations using **Microsoft Copilot** agents and **Coupa** and **ServiceNow** data.

University of Miami Hurricanes Baseball Coral Gables, FL — Sep 2025 - May 2026
Data Analytics Student Manager Intern
- Captured **TrackMan** and **Kinatrax** data for a **39-win** NCAA Tournament team (2026 Gainesville Regional).
- Ranked **535 D1 hitters** with a composite **z-score** discipline-and-power model across **~52K strikeout pitches**, joining pitch-level and player-summary data to surface pitch-type whiff patterns for coaches.
- Built an AI-assisted **Python (pandas)** pipeline in Google Colab automating data cleaning, pitch classification, and metric reporting.

Woolworths Group Sydney, Australia — Jun 2023 - Aug 2023
Supply Chain Project Intern
- Analyzed **3,000+ truckload arrival records** spanning several weeks at a **Sydney distribution center** in **Excel** and **Qlik**, identifying the freight forwarders with the weakest on-time performance to support carrier negotiations.
- Used **Qlik** analytics to segment global shipping-source data for executive decks presented to senior leadership.

EML Group Sydney, Australia — Jun 2022 - Jul 2022
Finance and People Team Intern
- Processed company-wide payroll in **Aurion** for a **3,500+ employee** organization, keeping compensation accurate and on schedule.
- Screened **~200 applicants** in **PageUp** (ATS) against role requirements, shortlisting qualified candidates for recruiter review.
- Prepared Excel support files with finance for an external audit by a **Big 4** firm and managed offshore-worker documentation.

PROJECTS

City National Bank of Florida Miami, FL — Jan 2026 - Apr 2026
Student Intern | IT Asset Management Dashboard (Capstone)
- Contributed to a cross-functional KPI audit across **~4,200 IT hardware assets** in ServiceNow, modeling lifecycle and end-of-life data to predict at-risk units and surface legacy dependencies.
- Built executive-ready Power BI dashboards across **4 report pages and 19 custom DAX measures**, translating system risk indicators into actionable insights under a no-JavaScript security constraint.

Tractor Beverage Co. Morgantown, WV — Jan 2025 - Apr 2025
Safety Stock Optimization | Project Team Leader
- **Led a team of 7** to design a SKU-level safety-stock strategy across a **27-SKU portfolio**, using ABC analysis to prioritize the high-value products driving the majority of revenue.
- Built multi-tier safety-stock models using **SQL** to aggregate demand data and Excel service-level formulas and bootstrap/Monte Carlo resampling for non-normal lead-time demand; back-testing indicated **~80% of prior stockouts** on key items could have been prevented while improving return on inventory investment **20%+**.

SKILLS

Sourcing & Procurement: Strategic sourcing, category management, RFx (RFP/RFI/RFQ) analysis, competitive bid evaluation, supplier scorecards, spend analysis, TCO, cost-savings modeling; Coupa, ServiceNow, SAP
Programming & Data: Python (pandas, NumPy, scikit-learn, Matplotlib, Seaborn), R, SQL, DAX
Analytics, BI & AI: Power BI, Qlik, Excel; Microsoft Copilot (agent creation, ad hoc analysis), Claude, ChatGPT; AWS, Google Cloud
Machine Learning: Regression, classification, clustering, random forests, gradient boosting, stacked ensembles, cross-validation

ACTIVITIES

WVU Supply Chain Management Association, WVU Deloitte Student Mentorship Program, UMiami Athletic Tutor
